

Rotary Hammer SDS+ M8701

The MT series from Makita offers a comprehensive list of tools at an affordable market price. Produced to a standard far exceeding that of the DIY market, the MT series combines industrial build quality with fundamental professional requirements, without the professional price tag. The MT series is therefore tailored to suit all discerning home-users, apprentices and trade users, who don't require all the features of a high-end professional machine, just a robust and reliable tool to get the job done.

MT series tools are produced in the same worldwide Makita factories as fully fledged Makita tools, and are subject to the same stringent quality control processes.

TECHNICAL SPECIFICATIONS

Max. in wood	32 mm
Max in steel	13 mm
Max in concrete (TCT bit)	26 mm
Max in concrete (TCT core)	68 mm
Max in concrete (Diamond core)	80 mm
Quick Change Chuck	✓
Impact energy	2.3 J
Shank	SDS-PLUS
Blows per minute	0 - 4500 bpm
Input Wattage	800 w
No Load Speed	0 - 1200 rpm
Net weight	2.7 kg

USER BENEFITS

- Re-located operating mode lever for increased protection and durability
- Improved bit guide for increased bit stability during drilling applications
- Ergonomic soft grip
- Torque limiter
- Forward / reverse rotation
- 3-mode operation for "Rotation Only", "Hammering with Rotation" or "Hammering Only"
- Variable speed control trigger.
- One-touch sliding chuck for easy bit changes.
- Depth stop
- Lock on function
- Double Insulation
